Goyang, Korea

Korea boasts a rich and unique culture of over 5,000 years which embraces the best of both the past and present.

Goyang city, located in Northern Seoul and easily accessible by public transportation (30 minutes from downtown Seoul), is fast becoming one of Korea’s 21st-century representative cities based on time-honored history and tradition.

Seoul’s 600 year history and culture make it an attractive capital city featuring the latest state-of-the-art technology.

KINTEX

World-class cultural space for exhibitions and conventions

Korea’s flagship exhibition center, KINTEX (Korea International Exhibition Center), is the largest size of its class in Korea and accounts for 41% of the combined area of the 12 exhibition centers in Korea.

KINTEX has successfully held Korea’s Top5 exhibitions, and is leading Korea as one of 4 exhibition powers in Asia as the only local venue with the capacity to hold large-scale international exhibitions.

THE 28TH INTERNATIONAL ELECTRIC VEHICLE SYMPOSIUM AND EXHIBITION

May 3 - 6, 2015  KINTEX, Goyang, Korea
www.evs28.org
**Call for Papers**

Those who are interested in our topics are invited to submit abstracts online by September 7, 2014. Please check the “Guidelines and Steps for Papers” on our official website (www.evs28.org). The EVS28 international program committee will review all papers, and if accepted, the author will be asked to submit a full paper. We will decide the presentation type (Oral or Poster) based on the author’s application and program requirements.

**Journal Publication**

By submitting your paper to EVS28, you will have the opportunity for your paper to be selected for the World Electric Vehicle Journal (WEVJ).

**Topics**

**e-Motional Technology for Humans**

The Topics will cover research and activities across all fields related to battery, hybrid and fuel cell electric vehicles, their infrastructure and components as well as topics related to market, business and public policies. General categories include, but are not limited to, the following topics:

- Batteries & Energy Storage
- Fuel Cells & Fuel Cell Systems
- Electric Motors & Generators
- Power Electronic Systems
- Embedded Control Systems
- Propulsion Systems & Subsystems
- Charging & Infrastructure
- Heating & Cooling Systems
- Auxiliary Components
- Electric Vehicles
- Hybrid Electric Vehicles
- Plug-In Hybrid Electric Vehicles
- Fuel Cell Vehicles
- Urban Electric Mobility
- Public Policy & Promotion
- Standardization & Regulation
- Introduction, Demonstration & Marketing
- EV Aftermarket Service
- Training & Education

**Invitation**

It is my pleasure to welcome you to the 28th International Electric Vehicle Symposium & Exhibition to be held in Korea from May 3rd to May 6th, 2015. Since its beginnings in 1969, EVS has contributed remarkably to the advancement of technology in the field of electric vehicles and related businesses. Thanks to the active participation and great support from distinguished experts around the world, EVS28 will follow in the footsteps of previous meetings and continue to abide by its standard of excellence.

With special emphasis on “e-Motional Technology for Humans”, the EVS28 organizing committee is concentrating all its efforts for a very exciting symposium and hopes to satisfy the highest global standards. Please come and share your innovative ideas with us. Additionally, we are sure you will enjoy and experience the many cultural and tourist attractions as well as the warm Korean hospitality.

I thank you in advance and look forward to seeing you at EVS28.

Sincerely yours,

Prof. MyoungHo Sunwoo, Ph.D.

Chairman, The 28th International Electric Vehicle Symposium and Exhibition
President, World Electric Vehicle Association
President, Electric Vehicle Association of Asia Pacific
Executive Vice President, Hanyang University

**Important Dates**

- **Deadline for abstract submission**: September 7, 2014
- **Notification of abstract acceptance**: November 10, 2014
- **Deadline for final paper submission**: January 31, 2015
- **Deadline for early registration**: March 27, 2015

**Sponsorship**

As the most comprehensive battery, hybrid and fuel cell electric vehicle exhibition in the world, the EVS28 exhibition will be held at KINTEX, Korea’s largest and newest venue. EVS28 will provide various packages for sponsorship, which will be a great opportunity to promote your brand identity in the EV circle globally and publicize your activities directed at sustainable, eco-friendly transport to a broad spectrum of people, including the general public. For sponsorship packages and benefits, please visit www.evs28.org. All sponsorship categories will be filled on a first-come, first-served basis.

**About EVS**

Begun in 1969 as an academic forum for global networking and technological exchange, the World Electric Vehicle Symposium and Exposition (EVS) series is recognized as the premier event for academic, government and industry professionals involved in electric drive technologies. The World Electric Vehicle Association (WEVA) is proud to organize the upcoming 2015 meeting. As electric drive technology has progressed from the classroom and laboratory into the marketplace, EVS has blossomed into what is recognized as the global electric transportation industry’s premier and largest forum, showcasing all forms of technologies in the market and on the drawing boards—from low speed battery electric vehicles to fuel cell electric buses. This event is for those interested in exploring and understanding the technical, policy and market challenges to the paradigm shift toward the use of electric transportation technologies.
